

*****THE LAMINITIS***
CHARITY SHOW**

Sunday 22rd April 2018

Venue @ Rockrose Equestrian

Sports Centre Ltd

Sunnyside Farm, Haddington EH41 4PZ

enquiries@rockroseequestrian.com

KINDLY SPONSORED BY

INTRODUCTION –

We decided to run this charity show last year in aid of the laminitis trust due to one of our own horses having had and survived severe laminitis.

It took over a year for our boy to fully recover with a further 6-8 months of total care before he could be back to being fully ridden and turned out into the field again.

I wanted to make the equine world more aware of how serious and potentially life-threatening laminitis can be to all horses and ponies and to be aware it's not always down to having obese horses!

But without the help and care of The Royal Dick Vet School and the knowledge of The Laminitis Trust our boy would not be here today!

I would also like to thank The Laminitis Trust for the full backing and support of the show.

This is a family fun filled show for everyone with equine friends of all shapes and sizes !

With lots of classes for horses, ponies, novices, young stock, veterans and fun classes too!

There will be trophies, rosettes, sashes, gifts, Donated prizes, along with special prizes for the Champions and Supremes of show!

Back again for a second year running we will have our popular adult and kid's tombola tables with lots of super prizes to be won.

We have a wonderful selection of stalls, which will be set up for everyone throughout the day.

Including our delicious home baking stall and chocolate fountain courtesy of Laura's Cake Shake. Van Rouge Equestrian tack shop will be there for all your horsey needs.

Hayley's Hartes and Crafts handmade crochet ponies.

Neigh Equine Organic products.

There will be a small selection of fruit and veg with lots of great deals on carrots and apples.

Hot and cold food and drinks will be available throughout the day courtesy of Rockrose Equestrian!

Stables may be available to hire by booking through Rockrose Equestrian only!

For more information and bookings please contact –

James Cunningham - 07793 804587

GOOD LUCK EVERYONE!

I HOPE YOU ALL HAVE A WONDERFUL DAY AND ENJOY THE SHOW!

THE LAMINITIS TRUST - LATEST DEVELOPMENTS

by Robert A Eustace FRCVS

Founder of The Laminitis Trust and Director of the Laminitis Clinic

To date the Laminitis Trust has provided over £540,665 for ground breaking research into equine laminitis.

We are currently funding projects which investigate insulin resistance and Cushing's Disease in two groups of ponies fed different, but commonly used diets. The results of all Laminitis Trust funded research have been and will continue to be published for all to see: the work continues.

We are very grateful to all who have made legacies and donations to the Laminitis Trust. Additionally, we recognise the efforts of those feed companies whose responsible attitude to horse nutrition has enabled the Laminitis Trust Feed Approval Mark to become the "gold standard" for safe horse feeds. Lastly, without the support of their customers who buy Laminitis Trust Approved Feeds for their animals, the Trust would not have been able to provide these substantial research grants and eventually avoid the need for a Trust Mark!

Only feeds which carry this logo are approved by the Laminitis Trust which is the only body with an independent scrutineering system for horse feeds. If your feed does not carry this exact logo, it is not approved by The Laminitis Trust.

The Laminitis Trust Approved Feeds:

Dodson & Horrell: Safe & Sound

Dengie Horse Feeds: Hi-Fi Lite, Hi Fi Molasses Free, Alfa-A Molasses Free,

Healthy Hooves: Healthy Hooves Molasses Free, Alfa Beet.

Spillers Horse Feeds: Happy Hoof, Happy Hoof Molasses Free, Hi-Fibre Cubes.

Hygain Horse Feeds: Hygain Ice.

Can you help?

If you have found our information helpful, or have had experience of laminitis, please consider donating to The Laminitis Trust to directly support further research projects. NONE OF WHICH INVOLVE ANIMAL SUFFERING, I would not tolerate that.

If you wish to help the Laminitis Trust in its fight against this crippling disease please visit www.laminitis.org where a form is available to donate tax free or telephone 01249-890784 for further information.

Cheques made payable to The Laminitis Trust may be sent to: The Laminitis Trust, c/o Mead House, Dauntsey, Chippenham, Wiltshire SN15 4JA.

LAMINITIS PREVENTION

You can prevent laminitis by avoiding high risk situations. The following is a list of "causes" or circumstances which we know commonly precede the onset of laminitis.

1. Obesity
2. Overeating on foods rich in carbohydrate or rapidly fermentable fibre i.e. cereals, coarse mixes, rapidly growing or fertilised grass. I personally advise that you avoid feeding haylage, of any description.
3. Any illness which involves toxæmia. This may be a bacterial infection or following the ingestion of plant or chemical toxins.
4. Cushing's Disease. This is a condition which follows an abnormality affecting the pituitary gland in the horse's head. It results in the horse failing to shed its winter coat. The coat becomes long and matted and eventually curly. The horse drinks and eats increased amounts of food while sweating excessively and losing weight. All Cushing's cases are likely to suffer from laminitis eventually.
5. Weight-bearing laminitis. When the horse is severely lame on one leg and has to put all his weight on the contra-lateral limb they often suffer from founder in the weight bearing limb. This is particularly common in hind feet.
6. Concussive laminitis (road founder). When horses are subjected to fast or prolonged work on hard surfaces they may develop laminitis as a result of trauma to the laminae, particularly if their horn quality is poor.
7. Hormonal problems. Animals which are "good doers" may be hypothyroid, which is quite a rare condition. Fillies and mares may develop laminitis when they are in season; this is a particularly difficult condition to alleviate but if you contact the Laminitis Clinic we can offer treatment suggestions which have proven helpful.
8. Cold weather. A few horses show laminitis during cold weather, fitting warm leg wraps during cold snaps prevents the problem in most cases.
9. Stress. Worming, vaccination, traveling or separation from a "friend" can trigger an attack of laminitis.
10. Drug induced laminitis. Although some wormers can precipitate laminitis, the most common group of drugs which cause laminitis are the corticosteroids. Even injecting short acting corticosteroids into joints can cause severe laminitis, acute founder and death.

Overeating / Obesity are the most common high risk situations which lead to laminitis. The secret to avoiding laminitis in this situation is not to turn the horse out whilst he is fatter than condition score 3. This means he should not have a fat depot along his crest or at the tail head, around the sheath or udder or over the loins. You should be able to feel his ribs easily by running your hand along his side yet you should not be able to see his ribs.

Limiting the grass intake can be accomplished by using a grazing mask or muzzle or by restricting the area available for grazing.

EMERGENCY TREATMENT

FOR LAMINITIS

Laminitis is just as much an emergency as colic, and often just as painful. It just takes the horses and ponies longer to die!

- **Call your veterinary surgeon – prompt attention can save lives!**
- Remove the animal from the source of the problem, if it is at grass get the horse, pony or donkey to a deeply bedded stable.
- The best bedding is Bedmax whitewood shavings, at least 18 inches deep, covering the whole floor area.
- If the stable is a long way from the field, trailer your horse home rather than making him walk, minimising the risk of further laminar damage.
- Keep him quiet and encourage him to lie down.
- Your vet will examine your animal and provide drugs such as ACP (acepromazine), Bute (phenylbutazone) to help keep your horse comfortable. Your vet will probably fit frog supports to your horse's feet and advise you on diet and management.
- The vet will recommend a forage diet, using one of the feeds with the Laminitis Trust Approval Mark along with appropriately limited hay.
- X-Rays may be taken in the coming days to assess any damage. This will also enable the vet to provide a prognosis.
- Absolute box rest is really important for recovery from laminitis. Your horse will need to remain in the stable for 30 days after it is sound without painkillers – how long it takes to reach this point will depend on the severity of the laminitis attack.
- Further information can be found on The Laminitis Trust website www.laminitis.org and also at The Laminitis Clinic website www.laminitisclinic.org

On behalf of myself and the rest of the committee from the LCS, we would like to take a moment to say a huge THANKYOU to all our sponsor's, Class, Champions and Supremes of show sponsors for their generosity & full support of this show!

And to all the judges, stewards, volunteers, competitors, family, friends and of course The Laminitis Trust.

You must have Personal Insurance with Public Liability: *I agree to abide by the rules of the competition and acknowledge there will be no paramedics on site, only first aiders. I have personal insurance including Public Liability appropriate to this event and can show this documentation to the show secretary on show day or produce on request prior to the event.*

RULES

1. All riders must be covered by third party insurance through private, BHS, Pony Club or any equine insurance.
2. **All exhibitors must have Public Liability Insurance**
3. All horses/ponies in any ridden classes must be at least four years of age.
4. All **stallion** handlers and riders must be 16yrs old or over
5. **The Judge's decision is final.** Any complaints to be made in writing to the secretary within 1 hour of the occurrence of the event giving rise to the complaint, with a £20 deposit which will be forwarded to the charity or returned if the complaint is upheld.
6. The organisers of this event, nor any person acting on their behalf, the owners of the show ground or agents acting on their behalf, accept any liability for any loss, damage, accident injury or illness to animals, riders, spectators or any other persons or property whatsoever.
7. Please plan your entries to avoid clashes; however, should your classes clash on the day we will do our utmost to accommodate at judge's discretion. We regret any inconvenience however delaying a class to cater for some entrants unfortunately has a knock on effect for other competitors.
8. Rosettes 1st to 6th place in all classes.
9. This competition is in aid of charity and **No entry fees will be returned** unless the competition is cancelled.
10. All handlers and riders must ensure that horses/ponies are kept under control at all times, any persons seen ill-treating any horse or pony will be instantly disqualified and will be asked to leave the grounds immediately!
11. Please **CLEAN UP** after your horse on the showground! All litter must be taken home with you.
12. All Trophies are property of this Charity Event and all winners must sign a receipt of custody for each trophy won. Trophies must all be returned by **FRIDAY 15th MARCH 2019**. There will be a **Fine** if unwilling to do so!
13. **Please note** – The Judges will stop for a break. This may be during a class section, but will be announced on the day depending on entries. Your patience would be greatly appreciated during this time.
14. Please can all horseboxes and trailers be courteous to other competitors and park responsibly.
15. Please note – There will be a separate car park for spectators, and a **£1.00 parking charge** made payable at the gate.

16. REMEMBER TO HAVE FUN !
