BEHAVIOURS |

Naps entering SJ arena, very strong & often careless. High up in field hierarchy Not a fan of tractors or high winds!

ADDITIONAL |

Heartbar shoes (low heels). Prone to weaving if left alone. Has had suspensory ligament injury in past (no current problem)

EVALUATION DATE | 21/01/2015

TRAINER | Karon Carson

NOTES | Good basic skills, aids require improving, loss of some core strength & balance Confidence has taken a knock (see previous horse) & she needs support to rebuild this.

Athletic, fit horse, no obvious lameness/stiffness. Slightly one-sided (stiffer to left) not affecting near term objectives. No serious behavioural issues, although fairly strong minded & can object strenuously before being convinced to try something new. Should be experienced enough to achieve 6 month objective. Power balance in relationship fluctuates :)
